The Ruiz Inquiry Has Not Yet Begun.

### A FORECAST OF THE REPORT.

The Treaty Has Been Violated and the Prisoner Came to His Death in Some Violent Manner, but No One Will Be Held Responsible—Destitute Americans in Cuba Getting Relief.

KEY WEST, Fla., May 27.—Word reaches here from Havana as follows:

The Ruiz commission of inquiry has not resumed its formal sessions, pending the translation from Spanish into English of the proceedings, copies of which, in summary, with the various declarations attached, are already in the hands of Mr. Fishback and the official stenographers, and are being transcribed under Mr. Calhoun's supervision.

The friction developed during the first session of the commission at Guanabacoa has disappeared and the members seem to have settled down to business in earnest. Few, if any, new witnesses will be called. Taking the written records as the basis, the opposing counsel, it is understood, will make their exceptions and raise any legal point they may have to note as they proceed. It is expected the commission in its report will make clear that the treaty was violated and that Ruiz came to his death in some violent manner while illegally held incommunicado. It is doubtful if individual responsibility can be fixed upon any one. In fact, no attempt will probably be made to do this, owing to the difficulties in the way of obtaining any new testimony on this special point.

An American member of the commission, however, seems confident that the finding will be so far satisfactory as morally to back up Consul General Lee's report upon the case and at the same time to justify the claims of the widow of Dr. Ruiz for damages from Spain.

Relief for destitute Americans is already being distributed. Consul Brice of Matanzas and Consul Baker of Sagua have received from General Lee money enough to relieve immediate necessities as regards food, medicine and clothing. In this way some 700 are reached at once. In Havana similar steps are being taken by the consulate and it is safe to say that already at least 1,000 persons, the greatest part of them naturalized Americans, have been benefited by the appropriation. Some of these will be sent to the United States.

Since the wounding of General Castillo there is increasing depression among the insurgent leaders in Havana, where there have been many surrenders to the Spanish. Brigadier Juan Delgado makes strenuous efforts to avoid the spread of this feeling and actually had mobbed several men who were trying to surrender.

About 1,000 insurgents are concentrated near Maria La Gorda, Pinar del Rio, where they have been for some days. It is reported that an expedition has landed nearby.

The following generals are in Havana: Sanchez, Incian, Gasco, Luque, Arolas, Bazan, Fuentes and Pavia.

### RELIEVING THE DISTRESSED.

Consul General Lee Has Abundant Funds For the Present.

WASHINGTON, May 27.—Consul General Lee cabled the state department from Havana that the amount of supplies he has now on hand there for the relief of American citizens in distress is abundant and will last for some time. Presumably this statement applies generally to all the consulates, for the consul general has been in consultation with his subordinate consuls on this very matter by direction of the secretary of state. At any rate the department will now pause before moving further in the direction of distribution of relief.

Steps were begun to hurry forward supplies from this country to Cuba just as soon as General Lee was heard from. General Sullivan, commissary general, had selected one of his most experienced assistants, Captain Davis, who rendered such good service at Memphis in the relief of the flood sufferers, to go to Cuba with the supplies if necessary and distribute them under the general plans of Gen. Lee. The New York commissary department was to undertake the purchase of the supplies. Then Mr. R. A. Smith, a director in one of the steamship lines plying between New York and Havana had offered free transportation to Cuba of the supplies and everything was in trip to begin the move as soon as word came from General Lee. Now, however, the department will wait until General Lee notifies it that there is further need for relief before putting its plan into operation.

### Gomez Coming to America.

PHILADELPHIA, May 27.—Advices from Cuba have been received by the local junta to the effect that General Gomez will temporarily resign as commander of the insurgent forces and come to this country as "secretary of war pro tem" of the Cuban republic to confer with President McKinley on the Cuban situation. During his absence, General Garcia will command.

### General Castillo Wounded.

HAVANA, May 27.—It is officially announced that General Castillo, the insurgent leader, was seriously wounded in the breast in an engagement which took place recently between his forces and the Le Altad battalion. Fifteen insurgents were killed.

One hectare, or 10,000 square meters equal to 2 1/2 acres

## FORETELLING THE WEATHER.

Striking Discoveries Made by Aid of Kites in the Upper Air Currents.

WASHINGTON, May 27.—The most significant development in weather forecasting for years, making it possible to forecast for a period at least 16 hours longer than at present, and more accurately, has been attained by the weather bureau and will soon bear practical fruit. This is the result of experiments with kites flown at distances one to two miles above the surface of the earth, which have been quietly conducted in this city for some weeks.

Daily readings have been taken at this altitude and the fact has been established that shifting of the wind occurs at a mile level above the earth's surface from 12 to 16 hours before the same change of direction occurs on the surface. This is due to the same forces which operate to cause wind shifts to produce a storm; one condition being dependent on the other. Secretary of Agriculture Wilson has taken great interest in the experiments, which were made by Chief Moore of the weather bureau, and his consultations with Professor Moore have resulted in the formulation of a policy which will make weather predictions more valuable in the future.

The most imperfect part of weather forecasts now is the prediction as to rain or snow. Meteorologists for the past 10 years have been impressed with the fact that future data as to storms must come from a knowledge of upper air conditions. The aeroplane investigations, as announced today, have reached that point where it can be safely stated that within six months the government weather bureau for the first time in the history of any meteorological service can construct a telegraphic synchro chart based on air conditions one mile above the earth. This chart will cover the conditions between the Alleghenies and the Rockies at the outset.

Chief Moore says this step probably will mark a new epoch in the weather forecasting problem. With these high level readings the bureau will have the moisture contents of the upper strata as well as the lower. It will be seen how important this double information is when it is considered that the two strata of air may be shifting of the wind become mixed within 24 hours and that the precipitation will depend upon the average moisture of the mass.

### POCKETED THE POT.

Ornament Wins the Derby at the Latonia Spring Meeting.

CINCINNATI, May 27.—The opening of the 15th spring meeting of the Latonia Jockey club was one of the most brilliant in the history of that famous association. The weather was perfect, the track was fast, the attendance reached the highest limit of the most successful season, and the racing was first class. Seventeen books were in line and the betting suggested flush times. The new mutual apparatus was not used.

Five went to the post in the derby with Ornament, the top weight, an odds on favorite, F. F. V. was the medium of considerable play, forcing his price down a bit from three. Box had some little support, but the two maidens, Panmure and Endurance, ran practically unbacked. The race needed little description. F. F. V. went to the front at flag-fall and set the pace, a hot one until going around the far turn, when Ornament came on and won as he pleased. Time, 2:35 1-2. Mile and a half, value, \$8,740.

### Beet Sugar on a Great Scale.

MILWAUKEE, May 27.—According to Kari G. Corn, until recently the manager of the beet sugar factory at Menomonee Falls, a company of foreign capitalists has been formed which will enter upon the manufacture of beet sugar on a gigantic scale in this and other states. He claims that all of the men whom he has succeeded in interesting in the matter are men who have had a wide experience in the business in Europe. He said: "The main business office of the company will be located in Chicago, and branch offices will be established in every sugar beet growing state in the Union."

### Tried to Mob the Umpire.

PITTSBURGH, May 27.—Umpire Hurst was in the hands of a mob after yesterday's game, and was saved serious injury by the Pittsburgh players dragging him into the clubhouse. The general sentiment after Tuesday's game was Hurst's favors gave the Orioles the victory, and a repetition yesterday capped the climax in the minds of the crowd and about 500 waited around the clubhouse for the umpire after the game. Hurst became incensed and struck one of the crowd, and was immediately jumped on by the mob. Ten policemen were called on to escort him to his hotel.

### Two Victims of an Exploding Boiler.

RENOVO, Pa., May 27.—Two men were instantly killed and three others seriously injured by the explosion of a boiler in a sawmill of Joseph Hauey, at Glen Hazel, Elk county, yesterday. The killed are: William Johnson, the fireman, and a man named Schafer, both of Reynoldsville. Joseph Hauey, the proprietor, and two other men who were near the building at the time of the explosion, were injured by flying debris.

### An Editor's Luck.

WASHINGTON, May 27.—The president has nominated Charles Burdett Hart of West Virginia for minister to Colombia. Hart is editor of the Wheeling Intelligence, and secured the appointment through Senator Elkins and Governor Atkinson. This is the position that ex-Lieutenant Governor William Lyon of Newark, O., made such a fight for.

## FIRST IN THE FIELD.

State Ticket Nominated In Convention at Columbus, O.

### THE LIBERTY PARTY IS READY.

The Silver Wing of the Prohibitionists Adopt a Platform and Nominate a Ticket—Ancient Relics Dug Out of a Mound—A Suicide's Remains Eaten by Rats—Other Ohio State News.

COLUMBUS, O., May 27.—The Liberty party, the silver wing of the Prohibitionists, in session here yesterday, adopted a platform declaring against the entire business of manufacturing, importing and selling of intoxicating liquors except by the government without profit; in favor of equal suffrage without regard to sex; government ownership of railroads and telegraphs; liberal pensions; election of president, vice and senators by direct vote of the people; restriction of immigration so as to exclude paupers; government land for Americans only; covering all office fees into county and city treasuries; coinage of silver and gold at 16 to 1 and ultimate adoption of full legal tender paper money issued through government banks on equal terms to all, the supply to equal the demand.

The following ticket was nominated: Governor—John Richardson, Champaign county.

Lieutenant governor—T. M. Hillman, Darke county.

Treasurer of state—T. A. Rodefer, Belmont county.

Supreme judge—J. S. Wertman, Ashland county.

Attorney general—J. W. Roseborough, Fulton county.

Member of board of public works—J. B. Polander, Marion county.

School commissioner—R. T. Walker, Madison county.

### Found in a Mound.

CHILLICOTHE, O., May 27.—Clarence Loveberry, curator of the museum of the Ohio State university, has made remarkable discoveries in the big mound. He is excavating just outside the city limits. Several days ago he found a well preserved log hut in the interior of the mound and yesterday he found a skeleton of the occupant of the hut. The skeleton's wrists were wrapped with cerements, indicating it to be that of a distinguished person. The skull was at least half an inch in thickness.

### Suicide's Remains Eaten by Rats.

ZANESVILLE, O., May 27.—The remains of Frank Rox, a plasterer, were found at the stable attached to Slaack's grocery yesterday. The flesh had been eaten from the forehead and the eyes had been devoured by rats. An empty bottle labeled landanum showed the manner in which the deceased had killed himself. It was his third attempt. His domestic relations were not pleasant.

### Sudden Disappearance.

WARREN, O., May 27.—J. Trumbull, a cooper who came to Warren recently, has left this place. Trumbull was employed at the Etna foundry. He and his companions returned to their room late one night. Next morning Trumbull was missing. During the night some person took \$25 and the clothing of two men who boarded in the house.

### Remains Unearthed.

UPPER SANDUSKY, O., May 27.—A walnut box, containing the remains of soldiers of the war of 1812, was unearthed yesterday afternoon during the excavation for the new courthouse. The bones of an Indian, of immense proportions, were also found. The remains of the soldiers will be given a military burial on Memorial day.

### Postoffice Hobbed.

UPPER SANDUSKY, O., May 27.—The postoffice at Little Sandusky, was entered by burglars last night, who blew open the safe and plundered it of money and stamps amounting to \$40. A horse and buggy were also stolen from John Heininger, a farmer, and driven to Kirby, where they were left in the road.

### Farmers Retaliate.

TIFFIN, O., May 27.—The farmers in Seneca township have refused Tiffin fishermen the pleasure of fishing along the banks of the Sandusky river, and claim they will do so until the fine of Ben Walters, a farmer, who killed a carp by spearing it, is refunded.

### Residence Burglarized.

CIRCLEVILLE, O., May 27.—The residence of Shelby Stago, in Washington township, was entered by burglars Tuesday night and considerable valuable property taken. An unsuccessful attempt was made to overtake the burglars with bloodhounds.

### Injured in a Runaway.

WARREN, O., May 27.—Dr. F. D. Sovorin of Bruceville, this county, was seriously hurt in a runaway yesterday. His team became unmanageable and he was thrown from the seat against a rear wheel and into a ditch.

### Shoe Dealer Assigns.

GALLIPOLIS, O., May 27.—James G. Fitch, boot and shoe dealer, has assigned to C. A. Smith. Assets and liabilities are supposed to be about \$2,500.

### THAWING DYNAMITE.

A Farmer and His Two Sons Instantly Killed and Two Others Hurt.

DULUTH, May 27.—A terrible accident occurred yesterday at Hermantown,

seven miles from Duluth. Frank Lucek, a farmer living there was thawing some dynamite to be used in clearing land of stumps. He was heating it over a fire when it exploded, tearing the house almost to pieces and killing Lucek and two young sons. His wife and small son escaped alive, but are badly hurt.

The boy was blown through a window and what remained of the house caught fire and was destroyed. The mother and son were brought to Duluth and are in the hospital here. The boy may die, but the mother will recover.

### VOTE ON THE TARIFF BILL.

First Alignment of the Various Elements Existing in the Senate.

WASHINGTON, May 27.—The first vote on the tariff bill was taken in the senate yesterday. It came after a two-hour's debate on the item of boracic acid, which, although comparatively unimportant, afforded an opportunity for the first alignment of the various elements. Mr. Vest of Missouri, a Democratic member of the finance committee, moved to make the rate on boracic acid 3 cents instead of 5 cents per pound as provided by the committee. This presented a direct issue between the committee and the opponents of the bill. The amendment was defeated, yeas 20, nays 34. The vote was largely on party lines. The affirmative was made up of 19 Democrats and one Populist, Heitfeld. The negative was made up of 29 Republicans, two Democrats, McEnery of Louisiana and White of California; two silver Republicans, Cannon of Utah and Jones of Nevada, and one Populist, Stewart of Nevada.

The vote in detail was as follows:

Yeas—Berry, Caffery, Chilton, Clay, Cockrell, Gorman, Gray, Jones, Kenney, Lindsay, Morgan, Murphy, Paseo, Rawlins, Roach, Smith, Tarpie, Vest, Walhall, Democrats; Heitfeld, Populist—total, 20.

Nays—Aldrich, Allison, Baker, Burrows, Carter, Chandler, Cullom, Davis, Elkins, Fairbanks, Foraker, Frye, Gallinger, Gear, Hanna, Hansbrough, Hawley, Lodge, McMillan, Nelson, Penrose, Perkins, Platt (N. Y.), Quay, Shoup, Spencer, Wellington and Wilson, Republicans; McEnery and White, Democrats; Cannon, Silver Republican; Jones and Stewart, Populists—total, 34.

The following were the pairs. The first named would have voted for the Vest amendment and the last against it: Daniel and Pritchard, Turner and Hoar, Pettus and McBride, Mallory and Proctor, Martin and Mantle, Mitchell and Sewall, Tillman and Thurston, Harris (Kansas) and Clark, Bate and Deboe, Harris (Tennessee) and Merrill, George and Wolcott, Bacon and Wetmore, Mills and Mason.

The debate was participated in by Senators Vest, Jones of Arkansas, Aldrich, Perkins, White, Caffery, Gray and Stewart.

Mr. White, a Democratic member of the finance committee, opposed Mr. Vest's amendment, urging that the California industry required the rate allowed by the committee.

Seven paragraphs of the bill were considered during the day, the committee being sustained in each instance.

The resolution was agreed to authorizing the secretary of the navy to employ any suitable ship in forwarding relief supplies to India.

### MIDDLEWEIGHT BOXERS.

Kid McCoy Gets the Decision Over Dick O'Brien of Boston.

NEW YORK, May 27.—Fully 6,000 people passed through the turnstile of the Palace Athletic club last night to see the fight between the middleweight boxers "Kid" McCoy, who recently returned from South Africa, and Dick O'Brien of Boston. These men met in Boston two years ago, and fought 35 rounds to a draw. Last night they met at catch weights for 25 rounds. O'Brien had the advantage in weight. The Kid was the favorite in the betting, as much as 100 to 40 being laid on him, and a ton of money was wagered on him at odds of 2 and 3 to 1.

McCoy was far the better ring general. He simply wore down his opponent, who, despite his gameness, was outclassed, and after they had only gone half through the 10th round Referee Charley White stepped the fight and declared McCoy the winner. O'Brien was badly beaten, and the action of the referee was commended by all the spectators.

O'Brien's handlers said that he weighed 163 pounds. McCoy said that he weighed 155 pounds, but he looked fully five pounds heavier.

### HAD SIX WIVES.

The Last One Will Probably Land Him in the Penitentiary.

SPRINGFIELD, Ill., May 27.—Dr. James Six, a veterinary surgeon, has been arrested at Logansport, Ind. He is wanted here for bigamy, and Sheriff Baxter left last night for Logansport armed with a requisition. Six came to Berry, a few miles from this city, recently and won the heart of Miss Kate Hornung.

Later her parents learned from half a dozen women at different points in Missouri that they had married Six and were undivided. Monday Six wrote Miss Hornung to join him in Logansport, Ind., and warning her not to let her parents know her destination. The sheriff was notified by her parents, and traced her to Logansport. The authorities there were notified, and Six was arrested.

St. Louis, May 27.—Thomas G. Campbell, the Cincinnati actor, who was shot by his wife Tuesday, may recover. He says that if he shall recover he will not prosecute his wife. Campbell says he is now done with all women except his mother.

## ARMISTICE EXTENDED

Still There Is Likely to Be More Fighting.

### THE SULTAN IS VERY DEFIANT.

He Will Not Even Discuss the Retrocession of Thessaly, but Will Leave the Other Points For Consideration to the Powers—More Complications Have Presented Themselves.

CONSTANTINOPLE, May 27.—The council of ministers has decided to prolong the armistice. It will refuse even to discuss the retrocession of Thessaly, but will leave the other points for consideration to the powers. So far as the note of the European arbitrators is concerned, there can be no doubt that whether the sultan is only biffing, or is the victim of popular pressure, a peace such as Europe expects can not be arranged without risk of the gravest complications.

The grand vizier on Saturday presented a report to the sultan urging that the whole of Islam was fully determined to retain Thessaly, adding: "Your majesty proved victorious in Armenian and other matters when you firmly refused to be dictated to by Europe. Therefore, you should be equally firm on this occasion. But if my views are unpalatable to your majesty, I beg of you to accept my resignation."

It now appears that the armistice was originally for three days only, and nothing but the energy of the powers secured an extension for a fortnight.

The story is current that a wounded Turkish soldier at the Yildiz hospital, on being invited by the sultan to proffer a dying request, implored him not to yield up Thessaly. The sultan grew pale, and his eyes filled with tears. Seyfullah Bey, chief of staff to the sultan, and the Von Moltke of the campaign, has been summoned to Constantinople to give the military commission the benefit of his advice.

### NEW COMPLICATIONS.

The Greek Government Is Preparing For a Possible Renewal of the War.

ATHENS, May 27.—It is believed that complications have arisen owing to the advocacy by some of the powers, including Russia, of a Turkish occupation of Thessaly until the indemnity is paid and to England's firm resistance to such a project. The Greek government is preparing for a possible renewal of the war.

The municipal authorities have conferred the freedom of the city upon General Ricotti Garibaldi and Amilcare Cipriani, the Italian socialist leader, in recognition of their "eminent services in the field."

The government announces that it has deposited in the national bank \$110,000 to pay the coupons falling due on June 15, next.

### Turkish Troops Mobilized.

LONDON, May 27.—A dispatch to The Daily Mail from Vienna says that the Turkish government has mobilized 50,000 additional troops, who are now in readiness to advance into Thessaly, and that the government is making active preparations for a Turkish administration of the province.

### Turks Expect More Fighting.

LONDON, May 27.—A Times' dispatch from Larissa says the impression is general among the Turkish troops that there will be more fighting. A brigade of Redif has started for Phourka armed with Mausers.

### New Governor General of Crete.

LONDON, May 27.—A dispatch to The Standard from Berlin says the powers, including Turkey, have assented to the appointment of Prince Francis Joseph of Battenberg as governor general of Crete.

### SHORT IN HIS ACCOUNTS.

A Minister and His Family Have Skipped For Parts Unknown.

WASHINGTON, May 27.—Rev. A. G. Harrison, pastor of the People's Tabernacle, and his family, disappeared from their home here Tuesday and it is reported that the reverend gentleman is \$9,000 short in his accounts. He was given entire charge of the church funds and according to the charges failed to pay bills for furniture, carpets and a church organ, for which the money was given him, and also borrowed large sums from his parishioners.

W. L. Bruin, the builder of the Tabernacle, is a loser to the extent of \$7,000. When Mr. Harrison learned that an investigation was to be made by the church, he departed hastily, leaving his household goods. He came to this city from Texas three years ago, engaged in mission work, and gained so large a following that the Tabernacle was built, chiefly through the efforts of Mr. Bruin, to give him a following.

At a meeting of the church council last night the determination was reached to dismiss Harrison from the pastorate and his name has been taken from the front of the edifice. The debts contracted for by him will be paid by the church. The police officials have not been notified of the defection and it is considered probable that no steps looking to arrest will be taken.

### Five Race Horses Killed.

JEFFERSONVILLE, Ind., May 27.—The fine race horse, Monmouth, owned by Messrs. O. O. and Mrs. West of Charlestown, ran into a wire fence and is dead. The animal was valued at \$5,000.

## BADLY BITTEN.

Clarence Hicks, of the Sixth Ward, Attacked by a Dog and Wounded in Several Places.

Clarence Hicks, aged about twelve years, a son of Mr. Polk Hicks, of the Sixth ward, was attacked by a dog yesterday forenoon and bitten on the hand, wrist, arm and hip.

The dog is described as "a reddish brown," with shaggy tail, and was a shepherd or pointer. It is thought the animal was suffering with hydrophobia, although this is not definitely known.

The dog was lying under a grape arbor on the river bank in Mr. Hicks' garden, when the lad first saw it. He spoke to it kindly, holding out his hand. The animal seized him by the fingers, and the lad had quite a struggle to free himself. The fingers were badly torn, but the most painful wound is on one of the joints of the arm. Dr. Pangburn dressed the wounds.

The dog was afterwards seen on the river bank at the upper end of the Fifth ward, but is still at large.

The boy will be taken to the Pasteur institute at Chicago to-day for treatment.

## DECORATION DAY.

Governor Bradley Issues a Proclamation Asking Kentuckians to Pay Tribute to Departed Heroes.

FRANKFORT, Ky., May 25.—Gov. Bradley this afternoon issued the following proclamation in reference to Decoration Day:

STATE OF KENTUCKY,  
 EXECUTIVE DEPARTMENT.  
 The beautiful and appropriate custom of decorating with flowers the graves of the Union dead on the 30th day of May in each year, and holding fitting memorial services, has for some years been recognized by law for the same has been made a national and State holiday.

As the 30th day of May falls on Sunday in the present year, such services will be held on the 31st day of this month.

I most earnestly request that public business may then be suspended, the children dismissed from school and as many persons attend as can do so, not only to honor the memory of the brave men who died to preserve the Union, but to cultivate kind and brotherly affection with those who fought in the armies of the Confederacy.

Let it be a day of patriotic devotion, a day when all political differences may be cast aside, and a day when good feeling may be entertained by all the citizens of the commonwealth for each other, regardless of the animosities of the past.

Given under my hand this May 25th, 1897.  
 WILLIAM O. BRADLEY,  
 Governor of Kentucky.

# THE BLACK DIAMOND

Col. Boone's Activity For His Big Trunk Line Stirs Up Other Companies.

The C., G. and P. Anxious To Build To West Union, But That Place Wants the Black Diamond.

(West Union News Era.)

Colonel Albert E. Boone is not only a railroad projector and builder, but he is also a prophet and seer of visions, and can look far into the future, and no better proof do our people need of his power to foresee coming events than is presented by the Cincinnati, Georgetown and Portsmouth railroad people at this time.

Two weeks ago, when Col. Boone was waited on by the committee of citizens of West Union at Maysville, and during the talk had with him and President Kirkby, of the Black Diamond, Col. Boone made the emphatic statement that West Union would have two railroads within two years. That all our people need to do to secure the extension of the C., G. and P. from Georgetown was to get "aboard" the Black Diamond.

"This stuff about the C., G. and P. having to sell bonds to get the money is all 'poppycock,'" said Col. Boone, "The Pennsylvania Company, the richest railroad corporation in the United States, now own the C., G. and P. and the Vice President of the Pennsylvania Company is a director of the C., G. and P. and the other members of the Board of Directors of the C., G. and P. are Pennsylvania people. They have an almost unlimited amount of money raised on their last issue of improvement bonds in the treasury of the Pennsylvania Company. The C., G. and P. belongs to the Pennsylvania. Now when they find that the Black Diamond proposes to build through what the Pennsylvania considers its territory, they will build and build in hurry. Why, gentlemen, when the Black Diamond movement gets started, you need not be surprised to get up any morning and see a gang of C., G. and P. construction hands building that road into your town. They will build and build in a hurry. As I said awhile ago, the Pennsylvania people have lots of ready money, and they will take the C., G. and P. extension bonds, put them in the Pennsylvania treasury, and check out all the money they need to build the C., G. and P. to West Union. They have fooled along with your people, making them believe that they would build each year, for the purpose of keeping you from making an effort to secure some other road, but when they find that Boone is in the field, you can bet that they will get a hustle on them and will build, and build quick, whether your people give them a dollar or not. I have been told that the C., G. and P. people have sent word to West Union, to have nothing to do with Boone, that there is nothing in his scheme. Why in the devil then are they so anxious for you to have nothing to do with Boone? Simply because they fear that he will build you a road, and they will be shut out. I have had two rounds with the Pennsylvania people in railroad building, once when I demanded to cross their bridge at Zanesville, and the other time when I built the Belt Line at Zanesville, and I licked them both times. McCrey, the Vice President of the Pennsylvania, who is the leading spirit in the C., G. and P. at present, was in command of the Pennsylvania interests on both these occasions and he knows when he tackles Boone he has got to fight a losing fight. The C., G. and P. people will be after West Union in less than a month. If they can get you to let loose of the Black Diamond then they will let their road rest just where it is, but if they find that you are determined to go ahead with the Black Diamond, then they will build and you will have two roads, where you now have none."

Col. Boone made but one mistake in his statement. He gave the C., G. and P. people a month in which to get stirred up; just a week to a day, the citizens of West Union received a communication from the C., G. and P. setting forth the fact that they "had arranged for the money," and were now ready to make a proposition. On Monday evening F. D. Bayless, Esq., received the following letter from W. J. Thompson, the Georgetown attorney of the C., G. and P. railroad:

GEORGETOWN, O., May 17, 1897.  
 F. D. Bayless, Esq., West Union, O.—Dear Sir: The owners of the C., G. and P. R. R. are about ready to make a definite proposition to your people, to extend their road to your place, but I see that you have another project on hands, and this perhaps would prevent your people from raising the amount sufficient to induce our folks to extend their road.

Our people have the financial arrangements about all completed, so as to be able to say to your people just what they would do. As you know the owners of the C., G. and P. do not make any propositions until they are prepared to carry them out to the letter, and when they make a

proposition you can depend on it beyond any question.

I would like to know of you at once what would in your opinion be the result if they make a proposition to your people. Yours,  
 W. J. THOMPSON.

Now in light of Col. Boone's statement made just a week previous to Mr. Thompson's communication, it places the C., G. and P. people in a rather humorous light. Here they have been for the past ten or fifteen years struggling along trying to borrow enough money to construct twenty miles of extension and in all these years they have been unable to get a few thousand dollars together, they have claimed that money enough could not be raised to even extend the road to Russellville, a distance of but a very few miles, yet just as the C., G. and P. find that some one else is figuring on building through West Union, they raise enough money in a week, to be in shape to make a proposition.

West Union wants the C., G. and P., and it also wants the Black Diamond, and it will be the height of folly for us to now listen to the C., G. and P. people and stop our work with the Black Diamond. If the C., G. and P. want to build we say let them come, but the salvation of West Union depends on the early building of the Columbus, Ohio River and Tidewater (the Black Diamond). With the C., O. R. and T., W. built, West Union will then be on the line of a great north and south trunk line; at Maysville we will have the C. and O., as a great east and west trunk line, and at Peebles we cross the C., P. and V., thus assuring us two direct roads to Cincinnati and the west, and to Portsmouth and the east. With the Black Diamond then, we have a through north and south road and practically two east and west roads. With the competition thus afforded, West Union would get just as low freight and passenger rates as though she were directly on the line of either of the east and west roads.

First Fiscal Year to Close on May 31st. Changes in the Men's Rallies During the Summer—The Gymnasium Work—Other Matters.

The Religious Work Committee, at their meeting Tuesday evening last, voted to omit the usual men's rally on Sunday next, and instead to urge all the members to participate in the memorial day exercises which are to be conducted by the G. A. R. on Sunday afternoon at 3 o'clock. A proper observance of this day and a fuller realization of its significance on the part of our young men will not fail to cultivate in them those desirable traits of character that are conducive to patriotism and good citizenship.

Plans for the summer meetings were also discussed by the committee, and it was agreed that it would be best to change the hour of the men's rally from 3 to 4 o'clock during the hot weather, this new arrangement to take effect at the men's rally the first Sunday in June. The services will be shortened and other new features are to be introduced so that these meetings will lose none of their interest or helpfulness during the warm summer months.

The committee also decided to change the time of the Bible Training Class session from Thursday to Wednesday evening at 8 o'clock, beginning June 2nd. The class will be held this (Thursday) evening at the usual hour, and all interested men are invited to attend.

Regular class drills in the gymnasium have been discontinued for the present, as it is impracticable to secure full attendance at gymnasium classes during the hot summer months. In many associations class work stopped about the first or middle of April, but in the local association the interest in this department has continued so steadily that well attended classes were maintained up to last week. The members will be privileged to use the gymnasium for individual exercise as much or as little as they choose, and it is earnestly hoped that many of the members will keep up light gymnastics, regardless of the weather, and especially on rainy days. For the present hot water will be provided for the baths as usual every week day.

The Juniors will continue to have the exclusive use of gymnasium and baths at the customary hours on Wednesday and Saturday afternoon.

Workmen are busy this week removing the plaster from the ceilings in the association parlor and reading room, and putting on instead beaded yellow pine ceilings. This change was found necessary because of frequent falling of plaster as a result of the jumping and other exercises on the gymnasium floor directly overhead. The new ceilings will be finished by the first of next week, and will not only prevent further annoyance, but when neatly vanished will greatly improve the appearance of these rooms. In the meantime the remaining room on the second floor will have to be utilized for office, reception, reading and amusement room combined.

The talk given by Rev. W. W. Darlington at last Sunday's rally from the significant text "We Can," suggesting the

# Friday's Cash Sale!

**RED TABLE LINEN.**—About a dozen patterns in red and white, red and black, red and green; colors warranted fast. Good, substantial damask, neat designs, with service and linen goodness woven in every thread. Regularly, 35 cents a yard; Friday, 23c.

**WHITE BED SPREADS.**—Full size, Marseilles pattern, good weight. An excellent value at regular price, \$1; an exceptional bargain at Friday's price, 75 cents.

**REMNANTS.**—On sale now and while they last, the following short length accumulations, marked at half cost, sometimes less. You'll be pretty sure to find something in the various lots to fit your want.

**RIBBONS.**—Our ribbon selling the past weeks has been phenomenal. As a result we have a box full of short ends, from three-quarters of a yard to two yards each. Every piece ticketed with length and price in plain figures; wide and narrow, light and dark, plain and figured, satin and Taffeta ribbons. We call it an eye feast and money famine, the prettiness of the ribbons is so varied, the littleness of their price so surprising. On sale now—don't wait for Friday.

**WOOL DRESS GOODS.**—A pile of remnants to delight your eyes and gladden your purse. A few skirt lengths, but mostly two and a half and three yards—enough for a waist or child's dress. Colors chiefly dark, though there is a good showing of pretty, light patterns in the lot. If you can conform your needs to our remnants, you'll easily save 50 per cent. On sale now.

**WASH GOODS.**—Calicos largely, but also a fair array of dimities and lawns. Prices at the lowest notch,—almost two yards for ordinary cost of one. It's worth investigating. On sale now.

## MAMMOTH TRUST

Proposed By Farmers to Control the Winter Wheat Crop.

VERMILION, Ky., May 25.—A movement was inaugurated here to-day by prominent farmers looking to the organization of a mammoth farmers' trust, comprising Kentucky, Tennessee, Indiana and other States, for the purpose of regulating the price of the winter wheat crop, soon to be harvested.

A convention will be called at Louisville July 1 to perfect the organization. The 1896 wheat crop in the Middle States has been exhausted, and the millers will need the new crop as soon as harvested. The farmers believe they can control the situation, and propose to starve out the buyers until they get living prices for their grain.

**\$8.75**  
SUITS

Have proved themselves the magnets that have drawn hundreds of people to our store in the past weeks.  
We have about 350 Suits left, and the price will remain unchanged as long as they hold out.  
These Suits are made up from desirable, fashionable fabrics. The styles are correct; the workmanship, finish, fit and general appearance the same as you expect to find in made-to-measure Clothing.  
If you think that the description is overdrawn, all we have to say is you will find the statement backed up by the goods.  
When we tell you that we are selling regular \$12, \$14 and \$15 Suits for  
**\$8.75**  
that is exactly what we are doing, and if you come and buy one of these Suits and find, after you take it home, it does not look the same as it did to you in the store, or otherwise is not perfectly satisfactory, bring it back and we will, without a murmur, return you the money.  
If anybody can tell us how to put the subject plainer or how to make a stronger guarantee, we would like to have them do it.  
Our finest Suits, that sell from \$12.50 to \$18, are worn by the best dressers in the city and county.

Is This Three-Year-Old Owned by Mr. M. M. Gordley, of Robertson—Double-Jointed and Weighs But 350 Pounds.  
Mr. M. M. Gordley, of Robertson County, was in Maysville Wednesday and told the BULLETIN of a remarkable freak in the shape of a three-year-old hay stallion of which he is the owner.  
This queer little piece of "hoss" flesh is forty-eight inches tall, five feet, six inches long, and is five feet, five inches between the knees and three feet between the hoofs.  
The most remarkable thing about the horse is that it is double jointed. The extra joints at the hips, when the animal is in motion, work "like a sickle on a mowing machine," as Mr. Gordley expresses it.  
The animal's legs can be twisted about in most any shape.

### THE CROP OUTLOOK.

Weather Conditions the Past Week Were Favorable For Farm Work—Report of the Climate and Crop Service.

[For Week Ending May 21.]

The weather conditions of the past week were very favorable to the progress of farm work, but were only fairly conducive to the growth of vegetation. Practically clear weather prevailed until Sunday, when much needed showers fell in nearly all parts of the State. Except in a few localities in the central counties, where the showers were exceptionally heavy, the precipitation for the week was considerably below the normal, and many correspondents report a total absence of rainfall. The temperature was generally below the normal for the week, and frost is reported to have occurred on the 22nd at a number of stations, though no damage resulted.

While the general tone of correspondents' reports is slightly less favorable than for some weeks past, they are so conflicting in some particulars as to render the task of making an average estimate of existing crop conditions a very difficult one. It can be said, however, that the outlook for crops generally is fair at the least and excellent for some of them, no seriously damaging influences having been reported. The season is still backward, owing to the cool, wet weather which has prevailed during the greater part of the present spring. A period of heat, with occasional showers, would do much toward the restoration of crops to their normal stage for the season.

Western Section.—Reports received from this section of the State are less favorable than those from other portions. The prevailing clear weather permitted of the performance of much work in the fields, and corn is very nearly all planted, some of the bottom lands only remaining. The early planted part of the crop is up, but generally speaking, is not a good stand, being yellow and uneven. In some localities it has been necessary to plow it over and replant. Reports concerning wheat are very conflicting, but it is apparent that its condition is not quite up to that of a week ago. The crop is heading out quite generally throughout this section. The dryness of the soil has retarded the work of transplanting tobacco, but a great deal of ground was prepared for the plants during the week. The majority of localities report a fair supply of plants, and in some places apprehension is felt that they will become too large to set before a good season comes. Oats, grasses and clover are reported to be in most promising condition. Gardens are doing fairly. Apples and

peaches continue to fall from the trees, but the smaller fruits promise abundant yields.

Central Section.—Generally favorable weather conditions prevailed throughout this section of the State, and the majority of reports are very encouraging. Farmers took advantage of the dry weather to push to completion the work of planting corn, very little of which now remains to be done. Some of the earlier crop is up and looks well generally. Scattering reports of cut-worms are received, but they have not as yet appeared in sufficient numbers to work material injury to young corn. Wheat is almost unanimously reported to be in fine condition in this section and is heading out well. Rye, oats and grasses are doing well, though complaint is made of an unusual amount of white top in the meadows in Boyle, Nelson and several adjacent counties. Gardens look well, though there is considerable complaint of the potato bug. There is a profusion of all the smaller fruits, but apples and peaches are dropping from the trees in great numbers in the more northerly counties. Practically no tobacco was transplanted during the week. In some localities the plants are reported to be small and scarce, but there seems to be no doubt that the supply will be sufficient to meet all demands.

Eastern Section.—Farm work of all kinds progressed favorably during the week. The planting of corn was nearly completed. The early planted portion of the crop is above ground, and its condition is not entirely favorable, the cool nights causing much of it to yellow. There has been a slight retrogression in the condition of wheat, but the general prospect for the crop is still very good. Oats and rye have improved slightly during the week. Meadows and pastures still continue in a most promising condition. But little tobacco has been set in this section, though in many localities the plants are of sufficient size and only await a good season to be transplanted. As in other sections of the State, reports regarding the quantity and quality of plants are very conflicting. Numerous complaints are received from the northerly counties of the dropping of apples from the trees. Reports relative to small fruits are favorable throughout the entire section.

Condensed Testimony.

Chas. B. Hood, Broker and Manufacturer's agent, Columbus, Ohio, certifies Dr. King's New Discovery has no equal as a cough remedy. J. D. Brown, Prop. St. James Hotel, Ft. Wayne, Ind. testifies that he was cured of a cough of two years standing, caused by la grippe, by Dr. King's New Discovery. B. F. Merrill, Baldwinsville, Mass., says that he has used and recommended it and never knew it to fail and would rather have it than any doctor, because it always cures. Mrs. Hemming, 222 E. 25th St., Chicago, always keeps it at hand and has no fear of croup, because it instantly relieves. Free trial bottles at J. James Wood's drug store.

—Mr. N. B. Marsh, who was called here a few days ago by the death of his father, returned to Cincinnati Wednesday afternoon.

A man's health is the rope by which he climbs to success. If he can keep his health, he will go on to success. Yet his health is the very thing he neglects more than anything else. It is easier to keep health than it is to regain it. When a man feels himself running down, when he realizes a loss of vitality and energy, he must call a halt. The strands of his rope are parting rapidly. Dr. Pierce's Golden Medical Discovery has helped thousands of men in just this condition. It makes health, it makes pure, rich blood, it forces out impurities and kills germs. It doesn't make any difference what name you call your trouble by—dyspepsia—kidney disease—rheumatism—consumption—skin disease, the "Golden Medical Discovery" will cure it absolutely. None of these diseases can retain hold on the body when it is full of rich, pure blood.

Send 21 one-cent stamps to cover cost of mailing only, and receive free a copy of Dr. Pierce's Medical Adviser. Address: World's Dispensary Medical Association, Buffalo, N. Y.

### JOHNSON'S CHOOKEEDNESS.

Nine Indictments Found Against the Ex-Bank President.

INDIANAPOLIS, May 27.—The federal grand jury yesterday found nine indictments against John F. Johnson, late president of the State National bank of Logansport, Ind. He is charged with violating practically every section of the national banking law, including forgery. Fifteen counts in all have been prepared and six additional indictments are to be found and returned with the others.

The total amount stolen by Johnson is \$450,000, but the property he has turned over brings it down to \$250,000. It is thought that he has fully half of the amount salted away.

It is found that the directors of the bank can not be indicted for stupidity and incompetence, which the federal authorities indicate is the chief trouble with them.

It is stated that Johnson two weeks before his bank failed, came to this city and tried to borrow \$25,000 from one of the local banks, but did not succeed.

Johnson had few callers yesterday. A couple of lawyers visited him at the jail, and he signed a deed to some property at Dunkirk in favor of Mahlon Conover of Logansport. Mr. Conover contributed about \$5,000 to Johnson's system of finance. Apparently, Johnson's only anxiety is to get into the penitentiary as soon as possible, so that his sentence will be going on.

### WHERE THE MONEY WENT.

Johnson Invested in a Number of Losing Ventures.

LOGANSPORT, Ind., May 27.—Bank Examiner Caldwell yesterday afternoon found in a private box in the vault of the wrecked State National bank some private correspondence belonging to ex-President John F. Johnson, which throws some light on the channels which absorbed the missing money.

Mr. Johnson was interested with ex-United States Treasurer J. H. Huston of Connorsville, Ind., in a phosphate bed in Virginia, and the loss in this direction will probably amount to \$100,000. The ex-president was also an extensive investor in oil and gas land leases near Gas City, Ind., but just what sum was sunk in this enterprise is not known.

His dealings in Colorado and Wyoming mining stocks swallowed up another big sum, the precise amount of which the bank examiner at the moment is unable to determine. Heavy losses were made in speculation in Chicago and Toledo "bucketshops" and boards of trades. It is believed that Mr. Johnson's shortage, which already foots up \$350,000, will not be increased by further examinations.

The reorganization of the bank is not thought possible and a receiver will be appointed.

### SAILORS SAVED.

The Sixteen Fishermen, Supposed to Be Lost, Safely Landed.

PROVINCETOWN, Mass., May 27.—The 16 members of the crew of the Provincetown fishing schooner J. P. Johnson, who went astray about the western bank last Friday, arrived here yesterday. All were well, although they suffered much from hunger during Saturday.

The men report that they were unable to judge as to the location of the vessel after they had been out trawling a short time, but by blowing fog horns continuously, the dories all were gathered together and tied one behind the other. They remained in this position until daylight Saturday, when the dense fog bank lifted and it was decided to attempt to row to Lahave, Nova Scotia, the nearest port. Two dories were abandoned before heading in that direction, the occupants being distributed in the other boats.

The small quantity of hard tack in the dories was soon exhausted, and the men were compelled to eat raw fish. No vessel was sighted until the castaways were within 25 miles of the Nova Scotia coast. At 1 o'clock Sunday morning the Norwegian bark China, Captain Anderson, from Hamburg, hove in sight. The men were taken on board and cared for. On Monday the schooner I. B. Merritt, Jr., passed near the bark. She was signaled, and as she was bound for Boston, the Johnson's crew asked to be taken on board. The Merritt's captain consented, and when off Race Point yesterday morning, the men got into their dories and rowed nine miles to this port. They were only a day behind their vessel, which reached here Tuesday, and reported the loss of her men.

Farmer Suicides.

HAMMOND, Ind., May 27.—Frank R. Kitchell of this city, formerly an influential farmer near Valparaiso, committed suicide yesterday by taking rat poison. He was 50 years old, and leaves a wife and four children. Despondency is supposed to have been the cause.

JUDGE H. MARSHALL BUFORD, of Lexington, committed suicide by drowning Tuesday night, in a shallow pond. He was fifty-two years old and unmarried.

For introduction, \$100 man's Keating for \$50 cash. Call and see.
